

**CHARTER of the AUDIT COMMITTEE
(the “Committee”) of the BOARD OF DIRECTORS of
YELLOW PAGES LIMITED**

AUTHORITY

The primary responsibility for the financial reporting and disclosure controls and procedures, accounting systems and internal controls over financial reporting of Yellow Pages Limited (the “Corporation”) is vested in senior management and is overseen by the board of directors (the “Board”). The Committee is a standing committee of the Board established to assist the Board in fulfilling its responsibilities in this regard.

The Committee shall have unrestricted access to the Corporation's personnel, documents and external auditors and will be provided with the resources necessary to carry out its responsibilities. In carrying out its mandate, the Committee's review of the various activities of the Corporation shall include such investigation, analysis and approval of such activities as it may consider necessary. The Committee may engage outside advisors at the expense of the Corporation in order to assist the Committee in the performance of its duties and set and pay the compensation for such advisors.

Nothing contained in this Charter is intended to expand applicable standards of liability under statutory or regulatory requirements for the directors of the Corporation or the members of the Committee. Even though the Committee has a specific mandate, it does not have the obligation to act as auditors or to perform audits, or to determine that the Corporation's financial statements are complete and accurate.

Members of the Committee are entitled to rely, absent knowledge to the contrary, on (i) the integrity of the persons and organizations from whom they receive information, (ii) the accuracy and completeness of the information provided, and (iii) representations made by management as to the non-audit services provided to the Corporation by the external auditors. The Committee's oversight responsibilities are not established to provide an independent basis to determine that (i) management has maintained appropriate accounting and financial reporting principles or appropriate internal controls and procedures, or (ii) the Corporation's financial statements have been prepared in accordance with International Financial Reporting Standards and, if applicable, audited in accordance with Canadian generally accepted accounting standards.
